## Value Stream Mapping for the Aeroplane Game

The aeroplane game is a simple, interactive game that can be used in any workplace to illustrate key Just-In-Time or Lean principles.

Last month we presented some case studies on Value Stream Mapping to demonstrate improved business performance and how you can deliver a better service to customers. Moving along with our theme, this month we are using the Aeroplane Game to demonstrate the basic Value Stream Mapping principles.

The Aeroplane Game is a simple, but powerful, teaching tool that allows the demonstration of nearly every Just-In-Time or Lean principle and gives an opportunity to discuss the rest. The power is in the flexibility of the exercise to be adapted and modified to nearly any circumstance.

Come along to learn the basics of this valuable teaching tool in your own workplace! There will be plenty of opportunity for discussion and questions, with nibbles and drinks provided.

*If you're serious about changing or improving the culture in your business, do not miss this event!*
